Yesterday arrived a Mail from Holland.

It came a Letter from Paris, dated the 17th ult. O. S. which says, that the Cardinal de Fleury was the Day before without a Fever; that the King continues to give him the tenderest Marks of his Affection; and that as his Eminency has had very interrupted Slumbers for several Nights past, the Physicians take care to give him every Night the Syrup of Diacodium. 'Tis added, that an Arrêt of Council published in France, prohibiting the Protestants to sell their Landed Estates in that Kingdom during the Space of 3 Years.

From Madrid they write, according to the freshest Advices from Peru, that some Missionaries sent into the Eastern Country, had converted a great Number of the Inhabitants to the Christian Religion; but that the Natives of that Tract call'd the Cerro de la Sal, continued their Cruelties against the Missionaries, and had put 3 Capuchin Fryars and 2 Lay Brethren of the same Order to a barbarous Death. They add, that our Envoy Mr. Keene, who had kept his Bed for several Days, by reason of a great Cold, is recover'd, and was to go to Court on the 2d or 3d of last Month; and that the Court had received but two Expresses from Foreign Parts for a Fortnight last, which they thought pretty extraordinary.

Letters from Warsaw say, that the Count de Munich went Post thro' that City from Petersburg to the Frontiers of Poland, in order to join the Russian Army in the Ukraine.

Those of the 11th ult. from Vienna O. S. say, that the Count has received an Express from the Baron de Wachtendonck who commands the Imperial Troops in Tuscany, with Advice, That he has received some Intelligence which he thinks certain, That the Court of Spain intends to send some thousand Men into Italy, to land at Leghorn or some other Port of Tuscany; and that he would not delay to give the Court speedy Advice of it, that they may take such Measures as they think proper. The Emperor has held two Conferences upon this Occasion; and 'tis the Opinion, it seems, at Vienna, that the Court of Spain, by making such new Motions, has a View to procure itself Justice for its Pretensions to the Allodial Estates and Moveables of Tuscany, Parma and Placentia. They add from Vienna, that the Count Gundacker de Staremberg, Master of the Horse to the Emperor, has desired Leave to resign that Post for the sake of his Health.

Letters from Rome mention the Death of the Cardinal de Olivieri, Secretary of the Briefs, who was created a Cardinal in 1712, by Pope Clement XI. and was 80 Years of Age. The Pope's Nuncio at Vienna succeeds him in his Post, and 'tis said he will also have his Hat.

And those of the 4th ult. O. S. from Genoa say, that a Ship was arrived there in 9 Days from Barcelona, the Master of which reported, that 10,000 Men were ready to embark there on some secret Expedition.

There are Advices of the 3d ult. from Bastia, the Capital of Corsica, by the way of France, which say, that 6 Deputies arrived there from the Heads of the Malecontents, which created an Opinion, that an Accommodation between the Genoese and the Malecontents had been concerted before hand, and that the French Troops were only arrived to see it put in Execution. But other Letters of the 5th ult. O. S. from Bastia by way of Leghorn, make no mention of any such Deputies; and say, that the Marquis de Boisseux who commands those French Troops in chief, having in his Master's Name signified to the Leaders of the Malecontents, that they must lay down their Arms, and let him know their Grievances, of which he would take care to procure a Redress; the latter made Answer, That as they had unanimously recognised the Baron de Nieuhoff for their King, they would do nothing till they knew his Mind; and that therefore they desired 6 Months time, &c. But all this needs Confirmation.

From the London Gazette.

Petersburg, Jan. 31. on the 14th Instant Velt Marshal Lacy set out from hence to go to his Estate in Livonia, where it is said he is to stay till the middle of next Month, and then return to his Command in the Ukraine. Velt Marshal Munich left this Place the 25th of this Month, in order to go to Kioff, and prepare every thing necessary for the next Campaign. Last Saturday being the Czarina's Birth-day, all the Foreign Ministers went in the Morning to make their Compliments to her Majesty, and dined at Court; where there was a Ball in the Evening, and at Night a Fire-work, and all the City was finely illuminated. The same Day the Czarina conferred the the Honour of the Order of St. Andrew on the Prince of Bevern, who is a Major General, and declared him one of the Majors of the Sime-

nofsky Regiment of Guards; and Prince Peter, the Duke of Courland's eldest Son, was made a Lieutenant Colonel of her Majesty's Life Guard.

Vienna, Feb. 19. N. S. We have received here confirmed Advices from the Frontiers of Turkey, of the Deposition of the Grand Vizier, and of the Caimacan of Constantinople's having been put in his Place. Count Fuenclara, the Spanish Ambassador, set out this Morning for Dresden, where he is to take the Character of Ambassador, both from his Catholick Majesty, and from the King of the Two Sicilies.

Dresden, Feb. 26. N. S. The Count de Fuenclara is expected here To-morrow. The Marriage of Don Carlos with the Princess Royal is to be in the Month of May; and this Court are preparing to give a splendid Festival on that Occasion, which will last 8 Days, as Balls, Illuminations, and a Carrousel, besides the Ambassador's Publick Entry: He is to be lodged at the Court, and to be served by the King's Servants, and to be defray'd. This Court have as yet taken no Resolution with regard to their Troops in Hungary; and it is thought they wait for a final Answer from Vienna, to resolve what to do.

BATH, Feb. 14. 1737.

THERE hath long been a Design on Foot of Building a New GENERAL HOSPITAL in this City, and the Gentlemen in the Management of that Design have at last, after many surprising Disappointments, procur'd a proper Piece of Ground for that Building, and will proceed in it with the utmost Dispatch. Besides the usual Advantages arising from publick Hospitals, it is presum'd, the present must be attended with many others of a Kind peculiar to this Situation.

It is well known of how great Efficacy the Baths and Waters of this Place are in the Cure of many Infirmities and Diseases incident to Mankind, but the Benefit of them is chiefly enjoy'd by Persons of Rank and Fortune, whilst the Indigent in general are excluded by their Circumstances from sharing in them. It is one principal End of this Design to make the Effects of these salutary Streams more diffusive and universal, by providing such Accommodations for the Reception and Support of the Poor, as may enable them to partake of these Advantages in common with the Rich. Of this it is judg'd proper to advertise the Publick, that Persons of benevolent Dispositions and easy Fortunes, may be made acquainted with the glorious Opportunity they now have of Assisting and Relieving their distressed Fellow Creatures, by becoming liberal Benefactors to this good Work.

A more particular Account of this Design, with the Methods propos'd to be taken for carrying it into Execution, and the Names of the Contributors to it, will be soon communicated to the Publick. In the mean time all who are willing to join in the promoting the Undertaking, may send their Contributions to RICHARD NASH, Esq; FRANCIS FAUQUIER, Esq; and Dr. OLIVER, at Bath; and Mr. BEN. HOARE, Banker, at the Golden Bottle in Fleet-street, London, or leave their SUBSCRIPTIONS with Them for the Use of this Charity; and they may be assured that all such Donations shall be faithfully applied to the Purposes intended by the Donors, and a monthly Account published by Mr. HOARE, of all such Donations.

Many Observations on Bills of Mortality, on the State of the Coin, the Interest of Money, and the Price of Things, in different Ages; and Notice taken of several Writers on this Subject.

#### ALSO

Rules are therein given for reducing Leases for Years or Lives to clear Annuities, shewing what Deductions are necessary to be made for that Purpose, out of the improv'd Rents on such Estates; without which the Value of them cannot be rightly ascertain'd; and stating at what Rate Interest ought to be computed in purchasing Annuities or Leases, either for Years or Lives, if the Purchasers expect to have the Principal reimbursed, or an Equivalent.

A Method likewise is shewn of calculating to what Number of Years any given Life or Lives, or an even Chance, may probably extend, whereby Estates held by those Tenures are converted into Terms certain, and the Value of them thereby readily seen: And all other Schemes for adjusting such Value are shewn to be false or precarious.

To which are added, in the Appendix,

Tables adapted to these several Purposes, and to most Cases which may arise on the Value of Estates of this Kind.

#### Concerning Gleet and Seminal Weakness of all Kinds.

**A**LL judicious Physicians and Surgeons allow, that nothing is more difficult to cure than Gleet and Seminal Weakness, whether occasion'd by too severe purging for Venereal Injuries, violent Strains, Pollutio sui, or any other Cause whatever, that they are dangerous in their Consequences, as well as difficult to cure, is as certain, since they exceedingly weaken the Generative Faculties, infect the whole Nervous System, often bring on Hectick Heats, a Tabes Dorsalis, or Consumption of the Back, or an Atrophy or Nervous Consumption, which frequently terminate in Death itself.

All such, therefore, who have the Misfortune to be troubled with Old or Stubborn Gleet, Seminal Effusions, Involuntary Emissions, excessive Nocturnal Pollutions, or any Weakness of the Kidneys, Uterus, or Bladder, the Diabetes, Incontinency of Urine, or Difficulty of holding their Water, would doubtless be glad to meet with a certain, safe, and speedy Cure, which they most assiduously may, by taking only a small Quantity of a transcendent Balsamick Restorative ELECTUARY, now published for a general Good after having for many Years been experience'd never once fail perfectly curing the most Stubborn Gleet known, a few Days, without Difficulty or Trouble, as also all other Weaknesses of the Back, Reins, Seminal Vessels, and Urinary Passages, which it almost instantly cures, bringing to rights and restoring all those Parts and Passages to the natural Tone and pristine Vigour, in a very extraordinary Manner, and by taking a few Doses of it only.

This transcendent BALSAMICK RESTORATIVE ELECTUARY is neither disagreeable to take, nor occasions the least Disorder, but is a wonderful Restorative in all Weakness and Defect of Constitution of any Kind, and particularly strengthens the Back, Reins, Seminal and Urinary Vessels to an immense Degree, inasmuch that in any Debility of them, one Dose of it does more than ten of any other Remedy yet found out, and all Persons fatigu'd with Gleet or Seminal Weakness of any Sort, or Weaknesses of the Urinary Vessels, who take it, will in three Days time find it so very effectual, that they will be most agreeably surpris'd at it.

When a Medicine will infallibly accomplish such a safe, speedy and perfect Cure of such difficult Maladies, as Gleet and Seminal Weaknesses are, as this Great Remedy truly and directly will, even after all other Means and Medicines have been tried in vain; too much cannot be said in it, and all who ever took it for any of the above-mentioned Purposes have readily declar'd.

The Price is but 6 s. a Pot, altho' for its absolute Efficacy one Pot alone being sufficient in most Cases to accomplish a Cure, worth ten times as much, and by the Author's special Appointment, is to be had only at Mr. Radcliffe's Toy-shop, at the Rose and Crown against St. Clement's Church-Yard in the Strand, ready sealed up, with a Book of Instructions, which whomsoever carefully reads will perfectly know, when the Gleet or Weakness he is afflicted with succeeds a Venereal Injury, whether all the Malignity of the Foul Disease is intirely eradicated or not.

Note, Ask only for a 6 s. Pot of Balsamick Electuary.

The most Fam'd and long Experienced Chymical Drops For ASTHMA's and CONSUMPTIONS,

That have been Sold so many Years, and with such uncommon Success and Benefit to the Publick, by Mr. Parry and his Predecessors, in Boar's-Head-Court, Fleet-street; and, since Mr. Parry's Death, have been and still are sold only by Mr. Read for 3 s. 6 d. a Vial, at his House in White-Fryars, (N. B. You may in just by the Sun Tavern in Fleet-street, and it is the great Corner House in White-Fryars; JAMES READ, in great Letters, is wrote over the Door.) They are a most incomparable and never-failing Medicine for the immediate Relief and perfect Cure of the most confirmed ASTHMA of the longest standing: And of all Sorts of CONSUMPTIONS, even when far advanced, as not to be cured by any other Medicine in the World.

**FOR** their Virtues vastly exceed any Thing that ever was published, or even known in the whole World, in the Cure of the worst Asthma's and Consumptions of all Sorts, Coughs, Colds, Catarrhs, &c.

They instantly relieve the Patient in the most sufficient Fit of an Asthma, and make a perfect Cure in a very short Time; for they gently open the Breast, and immediately give Liberty of Breathing, without danger of taking Cold; they admirably allay the Tickling, which provokes frequent Coughing, and take off the uneasy Sensation of acrimonious Humours, cleanse the small Glands, relax the Fibres, and thereby enlarge the Capacities of the Vessels; thus they regularly and quickly Cure the most obstinate Asthma of the longest standing.

They speedily and to Admiration cure all Sorts of Consumptions, Ulcers of the Lungs, &c. removing all Obstructions of the Breast, and Lungs, Hoarseness, Wheezing, Soreness, Shortness of Breath, and all the usual Symptoms which attend the Beginnings of a Consumption; and, if taken in time, will infallibly prevent one when seated. They are also exceeding nutritive and strengthening to Persons of weakly Constitutions, and have no other sensible Operation than as mentioned above.

And by Parry of Reasoning this most excellent Medicine in the (and well known to be) the most sovereign Remedy in the World for those troublesome spending Coughs, which many are severely troubled with Night and Morning; and also for the Chin Cough, and Hooping-Cough in Children; having cured Thousands; is so agreeable, and so few Drops to a Dose, that Children can take them with Pleasure, and without any Constraint.

In short, these unparallel'd Chymical Drops are the most infallible Remedy that ever was known (and therefore despite the true faint Efforts of all Counterfeiters or Imitators) for the Asthma's above-mentioned, and allowed to be so by the most judicious amongst the Learned in Physick; and confirmed by the largest Experience in private Practice, and are made Publick for Common Good.
